

## Lifted by Florian Tristan and the Garage Band

Well those bad mistakes,  
I made a few,  
But everything that I did,  
I did it for you.

Now I've been to hell,  
But I couldn't fit in,  
The devil told me,  
I'm too much of a sin.

### **Refrain:**

Why does it always rain on me?  
Clouds are the only thing I see.  
I won't get lifted I know I'm too bad,  
But you put me through this, you made me like that.  
All I ever wanted was just to be loved,  
So why did she leave me why am I not enough.  
Why am I not enough?

Now I'm standing here,  
And I'm singing for her,  
She's not even here,  
But I hope I get heard.

Please know that I've changed,  
As much as I can,  
So please take me back,  
I'm a different man.

### **Refrain:**

Why does it always rain on me?  
Clouds are the only thing I see.  
I won't get lifted I know I'm too bad,  
But you put me through this, you made me like that.  
All I ever wanted was just to be loved,  
So why did she leave me why am I not enough.  
Why am I not enough?
