

Love Is Dead by Florian Tristan and the Garage Band

I am only feeling good when I know you're around,
I'm only singing when I know you hear my sound.

I hope my spoken words will finally reach you,
Open up your wounds and let you bleed too.

Refrain:

'Cause you, you,
You treated me so bad,
And you, you,
You're my only regret,
And you, you,
You wish we never met,
And you, you,
You should know love is dead.

I want your heartbeat faster.
I want your heartbeat faster.

I hope your sadness gives me some peace of mind,
I hope your tears will make me feel satisfied.

Refrain:

'Cause you, you,
You treated me so bad,
And you, you,
You're my only regret,
And you, you,
You wish we never met,
And you, you,
You should know love is dead.

I want your heartbeat faster.
I want your heartbeat faster.

'Cause you, you,
You treated me so bad,
And you, you,
You're my only regret,
And you, you,
You wish we never met,
And you, you,
You should know love is dead.

I want your heartbeat faster.
I want your heartbeat faster.
