

The Garage Band by Florian Tristan and the Garage Band

If we're contagious you better get sick.
If we're the fire you better get burned.
If we're the water you better still your thirst,
And if you want us you better be first.

If we're the devil you better be hot.
If we're guilty you better be god.
If we're wrong you better be too,
There's a righteous wrong in our songs that's true

Refrain:

We are so proud of us I hope you feel the same,
We're up on our high horse and we don't feel ashamed,
'Cause we got here on our own, standing up here all alone,
Guess we've proved you wrong.

If we're playing you better don't leave,
If the bass is booming better move your feet.
If the drums are closing better clap your hands,
If there's a voting choose The Garage Band

Refrain:

We are so proud of us I hope you feel the same,
We're up on our high horse and we don't feel ashamed,
'Cause we got here on our own, standing up here all alone,
Guess we've proved you wrong.

Refrain:

We are so proud of us I hope you feel the same,
We're up on our high horse and we don't feel ashamed,
'Cause we got here on our own, standing up here all alone,
Guess we've proved you wrong.
