

Wonder by Florian Tristan and the Garage Band

See I've been wondering where you are,
See I've been wondering where you've been,
See I've been wondering what this is,
See I've been wondering what you've seen.

Refrain:

Cigarette smoke in your eyes,
Painful sadness in your sighs.

See I've been wondering what he did,
See I've been wondering what he said,
See I've been wondering what you did,
See I've been wondering where you've met.

Refrain:

Cigarette smoke in your eyes,
Painful sadness in your sighs.

See I've been wondering where you are,
See I've been wondering where you've been,
See I've been wondering what this is,
See I've been wondering what you've seen.
